INTRODUCTION

This is the sixth edition of the Page Directory of Miami, Oklahoma.

The Directory is the result of a thorough "house-to-house" canvass, call back and checking system to insure as complete and perfect list of residents as it is possible to obtain by careful and experienced effort.

The basic idea and real value of a City Directory lies in the completeness and reliability of this department, as every one realizes.

This company guarantees that future editions will also be compiled in like manner as the present edition and not a copy of the old one.

The new and very valuable features of this Directory give the names of the wives, the ownership and rental of property as a basis of credit, and the designation of upstairs by halves.

It also includes a carefully compiled and revised classified business directory.

Thanking all for their patronage and kindness in this undertaking, we submit the results of our labors, and hope to compile a seventh edition of Miami in 1927.

Respectfully,

THE PAGE DIRECTORY COMPANY.

Sedalia, Missouri.
